Education

B.E Computer Science and Engineering   *CGPA-8.1*
Chennai Institute Of Technology   *(2021-2025)*

Skills

- Java programming language
- Python language
- Structured query language
- Html
- CSS

Internship Experience

Raven software solutions   *(May 2023-July 2023)*

- Database administration and website design intern,Here we have developed tools which enhances user experience
- Demonstrated ability to collaborate with cross-functional teams and adapt to dynamic work environments. Seeking opportunities to contribute and grow within a dynamic tech environment

Projects

- **Online Car Management System**

  Designed and developed an online car management system , leveraging front-end technologies like HTML, CSS, and JavaScript combined with back-end frameworks such as Node.js. Implemented user-friendly interfaces, secure payment gateways, and integrated database management, ensuring seamless functionality and a smooth user experience for browsing, booking, and managing car rentals

- **Movie Recommended systems**

  A movie recommendation system project aims to suggest films to users based on their preferences and behavior. It typically involves data collection, preprocessing, and the application of algorithms like collaborative filtering or content-based filtering to generate personalized recommendations. The system's effectiveness is evaluated through metrics like accuracy, diversity, and novelty of recommendations, enhancing user experience and engagement with the platform.

Certifications

- Cybersecurity Essentials - Cisco Networking Academy. (1 month)
- Introduction to Packet Tracer - Cisco Networking Academy. (2 weeks)
- Introduction to Front-end Development with ReactJS - Coursera   (3 weeks)
- Beginning of sql servers-Cisco Networking Academy   (1 week)
